Message:

The increased railway traffic which would result from this transaction would be a horrible burden on our community. Besides the increased noise that I am personally upset about it causing, the traffic situation where these lines run through is already a problem. The bridge which runs over North Aurora Road is not wide enough and causes a great deal of problems with traffic all day long, especially during rush hour. This bridge must be widened without exception. Furthermore, there are other locations where this train railway crosses the street at street level and due to the stops the trains make can delay traffic for 20 minutes or more. This is a burden already with the amount of trains we currently have. An increase of this burden would be unbearable.
