RE: Docket # 35087

Dear Ms. Rutson,

I had the issues regarding Docket # 35087 last night. I am horrified that all the conflicts that will arise from this transaction are not being taken seriously. A glorious corridor of homes, schools and businesses will be corroded, safety threatened and unnecessary noise be inflicted on these citizens.

We very much need assistance from our representatives to protect us from the bottom line, financial disregard.

I cannot understand the mad being given to a Canadian business which will destroy the lives of thousands of people.

How would you like freight trains running through your yard and then have to pay maintenance on it. Whose welfare are you protecting?

Thank you for your consideration of my request.

Sincerely,
