

080202 Olsen

Hi, I am calling to submit a comment regarding the acquisition of the EJ&E railway by Canadian National railway. The STB Finance Docket is 35087. My name is Alexis Olsen and my comment is that this would have a very detrimental impact on city of West Chicago where I live where the EJ&E and Union Pacific railroads intersect. That intersection is already currently blocked about 20 minutes of every hour. If the EJE increases its traffic, it's going to be very harmful in terms of the community by dividing the community into two separate halves. It will be difficult for rescue crews such as firefighters and police officers to service basically half of the town where I live. And of course the detrimental affects of noise and pollutants is also of great concern. So, my suggestion would be that this be not approved because it will be so harmful to the community. Thank you.
