Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I feel as though the following ARE the PROBLEMS I am most opposed to in order of importance to me.

(1) Increased time resulting in possible loss of life to get to medical care, not just to the hospital, but from the medical care centers to the medical emergency.

(2) Possible job performance ramifications from being late to work.

(3) Noise increase with more trains at my house, which is 300 yds. from the train line.

(4) Inconvenience & annoyance & unnecessariness of delays in our everyday life.

(5) The seeming insensitivity of the railroad to our needs

YOUR INPUT IS IMPORTANT!
