I am very concerned about all the problems that will result from CN owning the E&E railroad, including crossing safety, more time in the car, increased pollution, impact on emergency response times, vibration issues, and the additional noise. I live in Georgetown subdivision & will be affected daily with the increased use of the tracks at Ogden Avenue and at Deibel Rd. Not only will it increase my current 1 1/2 hour and 15 minutes to work daily, but I have a huge concern about the response time of emergency personnel. I am diabetic and did need paramedics on one occasion. The additional train traffic and noise will adversely affect my property value, as a homeowner. I am very opposed and concerned with the increased trains.
