Message: To Whom It May Concern:

I am writing to protest the purchase of EJ&E Railroad by CN. This purchase will greatly upset our community and put our children at high risk. This risk is due to the fact that CN plans to increase usage by over 400%. Our childrens lives are at stake due to this increase that will result in a severe safety risk for all. Deaths will rise if this purchase goes through. What concerns me as well, is that this is to a foreign company! We pay US taxes to live and work here, we have a right not to have our safety, well being, and properties effected by a foreign company. Please take these points into consideration. Our childrens future is at stake.

Best,
Dean
