Subject- Nomination for RSTAC Small Railroad Representative:

I, Rusty Krumrey, would like to formally nominate myself to serve as the RSTAC small railroad representative. I have over twenty years of railroad experience and currently work for Trans-Global Solutions (TGS). Trans-Global Solutions is a Class III railroad located in Baytown, TX. TGS is the largest industrial park in the United States that primarily offers rail car storage to customers throughout Texas and Louisiana. I serve as the safety director for all FRA reporting and oversee the third-party rail car switching at ten different chemical plants and ports. I was employed with Union Pacific Railroad from 2004-2019. My career started as a freight conductor and progressed to Locomotive Engineer and eventually management. I have held positions ranging from safety manager to Superintendent of eleven rail yards in Central and Eastern Iowa. I have extensive rail knowledge and understanding of the rail network. I would be honored to serve on the advisory board to offer my expertise to the decisions that may affect the industry I serve. Thank you for considering my nomination.
