

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

CN & Rail has a history of train crashes and poor response once accidents happen. That being said....

it is ridiculous to think that once the train traffic increases you will not see a linear increase in high school students who are involved in accidents that somehow involve those train tracks.

The increase in traffic will make it almost IMPOSSIBLE for people who work East of Barrington and live in Algonquin to make their daily commute.

Increased CN Rail activity will limit the rate at which expansion of commuter trains will be able to expand.

YOUR INPUT IS IMPORTANT!
