Environmental Impact Statement

I am opposed to the CN Aquisition of the EJ&E Railway. BARRINGTON IS A Community that has been developed w/out the train Setuation. By bringing it in it will forever change the way of life in this community. If 20 trains cross the track it will bring this community to a standstill 20 times/day. It will affect the commerce, the medical response time, even the bus schedule for the schools. Every The train tracks cut the community in half So there isn't any way of getting around this. It will forever change the lives of the people in this community
