Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

about the Great Lakes Basin railroad that would
basically cut our township in two pieces.

1) this would inconvenience our farmers as they would
not have access to their own land on their own farms.

2) the added time our school students would be
on the bus going to and from school would increase.

3) by closing roads and adding crossings to other
roads our local road commissioner would spend
more time on road upkeep and snow plowing.

4) I am also concerned that our first responder
would have more of a challenge reaching any emergency
scene.

Thank you for your consideration.

Respectfully Submitted
