Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

Hello, we are the Barrington tennis team. We would like to express our growing concern about this issue.

Barrington is a large and growing community. There are many vehicle transacted throughout the day. Because of the growing population, the streets are extremely congested when school begins, is let out, and other rush hours of the day. It would be even more difficult to arrive to our occupations, whether they be student or a simple laborer, on time. As students, we value our learning experience, and it would be easier for us to learn if we did not have to awake even earlier than we already do. Those of us that have field trips, or sports would be unable to pursue those ventures do to the additional trains. The economy of Barrington will also slow down because of the excessive traffic.

Please, as a fellow Barringtonite, I would like to grow up in a community where the public high school and public library are accessible.

YOUR INPUT IS IMPORTANT!
