

02270. UNKNOWN. GARCIA. PETE. WOOD. ON.

Dear Sirs,

I want you to know how totally against the CN railroads acquisition of the EJ&E. With the increase in the amount of trains they want to put out it would cause havoc on our community and cause severe traffic and safety issues. I live in the Barrington area and feel like my property values would go down greatly. I feel like no one will want to move in the Barrington area anymore. What about the hazardous wastes that the trains would carry and the pollution and noise the would incur. Please don't allow this to happen to our great community.

Thank You

Ole Garcia
