The Honorable Anne K. Quinlan, Esq.
Acting Secretary
Surface Transportation Board
395 E Street, SW
Washington, DC 20423

RE: *CN Railway Company/EJ&E, STB Finance Docket No. 35087*

Dear Secretary Quinlan:

Currently, there is a significant amount of rail congestion that is occurring in the La Grange Park area. Fortunately, CN has a plan to reduce this congestion by purchasing a portion of the EJ&E rail line, and relocating freight train traffic to areas where they will be able to travel more freely. By doing so, CN will help to cut down on the emissions that idle trains let off, and will reduce the amount of costly fuel that they use. However, the most immediate result will be the positive impact it will have on everyday traffic.

I come across idle trains when driving, and when this happens, I have no choice but to wait. Train congestion has become a way of life. In planning daily travels, residents have to set aside time for idling trains. Nevertheless, with CN's proposal, train congestion will let up and commuter traffic will have more continuity.

In closing, I ask that you waste no time in approving this proposal. Many residents of the La Grange Park community are counting on you to protect and improve our transportation system. Thank you for your time.
