Message:

Dear STB - please reconsider your indicated approval of CN's purchase of the EJ&E by at minimum requiring CN to mitigate ALL affected crossings the purchase will impact. In my community the longer and more frequent trains will cause havoc for residents, school children, emergency services and day-to-day living by blocking all roads at once. CN's offer of \$40 million is ridiculous - please require them (so they can build their rail "superhighway") to mitigate ALL crossings throughout the EJ&E route

Thank you for your attention
