Message:

I support CN's proposal acquisition of the EJ&E railway. Anything to stop the train crossing delays on and near Harlem Ave. and the 5 A.M train whistles that throw you out of bed is fine with me. I do not want to see property values dropping because of train accidents involving hazardous waste. Traffic delays are horrible in my town and nearby towns because every single time you go out, you can expect to be delayed by at least one train if not more. They must be re-routed to another part of town. Thank you.
