As a resident and a taxpayer my concerns & questions the need to be answered are:

(1) What types of cargo with the railroads carry
- Biohazard material?
- Toxic material?

(2) Who will pay for the needed bridges or overpasses that will be needed to support additional rail system?

(3) In the event of accident or spills, what will the impact be or who will be held liable for deaths (if biohazard materials are involved)

(4) With the rail system & increase of the frequency, I see decrease in home values and decrease in tax revenue for the city — How will the city make up for lost revenue?

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
