

080111 Lomas

Hi, good morning, this is David Lomas and I recently attended the open house review meeting in, uh, for the Barrington area. And there was some information I would like to see and some facts I would like to see that I couldn't get access to either from the NCR or the STB and this information pertains to current freight and train levels and volume presently being used on the EJ&E railway line. What I would like to see is average freight numbers; i.e. how many trains typically per day/ what's the average being presently and over the last year and three year periods. Not only the number of trains but the type of freight that is being transported over the last 1,2, 3 years. Be it be cars, coal, gasoline, petrochemicals, nuclear waste, toxic waste? Just what the, uh, the freight type, uh, is being. I would appreciate being told and being informed of these numbers on a factual basis so they can be used. My name is David A. Lomas. My address is 250 Maple Road, Barrington, IL 60010. My business telephone number is area code 847-304-4883. I thank you very much and I would appreciate this information. Thank you. Have a good day. Bye.
