Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The CNR proposal would result in a disastrous
blockage of emergency vehicle traffic from the police and
fire departments, as well as ambulances/paramedics
attempting to reach Good Shepard Hospital. The ~~also~~ only
reasonable compromise is for the CNR to be absolutely
legally committed to financing mitigation in the form of
overpasses at Lake Cook Road, Barrington (Hough St) Road and
Northwest Highway.

Given long-term proposals involving energy, global warming
and traffic volume, it is imperative that the EJ-E tracks
be explicitly preserved for mass transportation in the form of
Metra's interurban commuter. The CNR itself will consume
more energy as will the immense vehicle traffic waiting for the
freight trains to pass.

YOUR INPUT IS IMPORTANT!
