" I am adamantly OPPOSED to the CNR acquisition of the EJ&E Rail Line. It is nothing but BAD for all affected communities which provide passage to these rail lines. Such an acquisition will minimally: 1) Dramatically increase auto congestion in areas that are already congested; 2) Increase potential of crossing danger to both automobile and pedestrian traffic; 3) Negatively impact property values in all affected communities; and 4) Increase the level of pollution. DO NOT approve this proposed acquisition
