Barrington was my husband's & my choice because of the way of life it offered. Our town as we know it now will never recover. All the reasons we chose to live here will go away.

Those communities that have these trains at present have had them for some time. They have the infrastructure in place to make their towns work within the confines of the rail road.

To approve this and make our community shoulder the burden to make this work would be financially crippling & would spell the demise of our community.

I also cannot believe that the abandoned lines would remain so. Those towns would soon find a new amount of rail traffic in very short time.

YOUR INPUT IS IMPORTANT!
