DEAR Mrs. Johnson - Ball

My NAME is Richard Lyman, I live in Frankfort IL. As you know the C.N. Railroad is trying to acquire the E&E. The tracks run behind my house and I am very concerned about the effects of increased train traffic. This is a bad deal for the American Public who will ultimately pay for improvements that will need to be made.

This disruption to our communities is not worth the benefit the U.S. would receive from this transfer/sale. Goods primarily made in Asia, with increase trade deficits don't have to come faster ultimately putting Americans out of work.

Phillis, This SALE will put an undue
Burdens on many communities surrounding
Chicago. We are completely unprepared &
unprepared for these huge changes.

All for the sake of a foreign Co.

Now I have no problem with international
trade or the Canadians, but I ask you
to not allow this SALE - Property values
Quality of life issues are what motivates
me. I own a small business in Blue Island IL
a southern rail hub so I understand
what is involved here

So I respectfully ask for your
help in this matter to STOP this SALE

Sincerely

Richard Lymard
