Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

I don't know how a railroad that
affects thousands of human habitats and
destroys some of the most fertile land
in the nation and severely hampers what
remains around the railroad proposal,
when comparable railroads run parallel
to the same route. Fix and upgrade those
route first as a Chicago by pass. Coordinate
and computerize with those existing railroads
in order to speed the traffic before this
drastic new plan. Save the farms!
Conserve the rich land. Save the domestic
animal and human habitats. Improve before
expansion!
