Hello, this is George Beck. I'm at 13565 McCarthy Rd, Lamont IL 60439 and I'd like to leave my comment. The acquisition of the EJ&E not take place unless regulations mandating certain operational procedures are instituted such as limiting the trains to 4600 ft, so as the train may sit between the crossings and on any ER tracks or sidings that are available. And those trains should not be released onto this property until there are receiving tracks long enough to receive them so as to not block crossings and there should be penalties involved for violations. Thank you.
