Transcript:

I'm on the south side of Laraway Road and I have very big concerns for the property value on our south side due to how people fear this transportation system coming through, um traffic tie-ups, emergency uh responses in our area, um because I'm part of a boundried, a change of boundried school, um I worry for myself to um get to my children's schools in case of emergency. Um, yeah I just, I feel like there are many different ways for the railroad to uh persue, um solving this problem and that would be maybe running a whole new track, that would not disrupt um small communities that are trying to grow successfully and um, I'm hoping that you will listen to my statement with heavy consideration. Thank you
