I am 88, and have planned to sell my house, and use the money to invest in a retirement home. It has taken me many years to accumulate the money for this home. The real estate firm that is helping me make my arrangements tell me if the Canadian National RR purchase goes through, it would take a long time to find a buyer, and even then I'll have to settle for a greatly reduced sales figure.

My house is the main part of my equity; at 88 and in poor health, what chance do I have in making any recovery?

The fence at the back of my lot, is also the border of The RR property, and being less than 1/4 block from the Cuba road crossing always wakes me up.

And I know for a fact that there are many expensive homes bordering the RR property. My income is SS. Which Congress is constantly stealing.
