My comments are please do not have Canadian National buy the railway line. We are deeply concerned about the traffic congestion, which will lead to emergency services getting delayed, ambulances, police, fire, you know, all those departments are severely affected if the number of trains going by and length of the trains, just the number, it's just overwhelmingly heightened, it's just gonna, it is going to change the way we live here. The value of our homes, the way our children go to school, the way I go to work, the way I go to about anything in my life is going to be affected by this transaction. So, I please ask you to deny this offer and do what's best. My children live here, you know, they're gonna live here forever, we're not going back to our home country of Korea, this is where we're going to make our home. So, this is very important to us, and our community, and everybody here. I appreciate you listening and, well I don't know how else to say it, but I hope you will listen to all of our concerns and vote no. thank you very much. My phone number here is 630-978-2327. Okay, thank you very much
