Transcript:

I'm against the increase in train traffic. I live just west of the track, as a matter of fact I can see the track from my backyard, and it's enough noise as it is already and we have buses, school buses going across there all the time and any increased train traffic would hinder the children getting to school on time. I'm concerned about getting to the hospital. I'm concerned about fire protection and police protection and emergencies. If they have to go around, it's like a three mile detour or four mile detour and it hinders me to get to work on time because I never know when a train is going to come and you know it could affect me on my job. So, I stand wholeheartedly against any additional train traffic that may result from this CNN acquisition of EJ&E Railroad, and my phone number is 815-439-3305. Thank you very much
