Transcript:

I'm calling concerning the Canadian National Railway and EJ&E Corporation and I'm opposed to this acquisition because we have so many delays as it is with traffic and the vehicle delays at the railroad crossings would be worse and the safety of the crossings, namely for the emergency response times would be terrible to get sick people to the hospitals, would be bad for the school buses, and there is so many cities and villages around our community for the people going to work and to school and other activities they would see the congestion would be horrendous. it is bad when there are trains now and if they would add more trains, it would be just horrendous and I am opposed to this Canadian National Railroad Corporation buying the EJ&E in our area. Thank you
