 Message:

To whom it may concern,
 I understand that this is a multi-faceted issue. However, this proposal would wreak traffic havoc on our population as well as the populations of adjacent towns. The impact is huge. My husband and I moved here to be AWAY from congestion and noise. We enjoy the riding trails many of which near the railroad. As well, we commute downtown to work. Parking is already limited and traffic is disastrous. There is no way that this proposal will do anything but decimate our town-from both business and personal perspectives. Emergency vehicles will never make it to the hospitals on time. If more train traffic must occur I strongly suggest that the trains travel OVER or UNDER the roads. You can build bridges for traffic or trains but they will not both fit here. Thank you for your consideration. Diana Joseph and Bruce Goodhart
