Message: I live approximately 1/8 mile from the railroad tracks impacted by the potential sale of the Elgin, Joliet and Eastern railway. I work on the other side of these tracks, and so does my husband. If we can expect as many as two trains per hour, this change will negatively impact our drive to work, our sleeping patterns, and our daily life. The current usage does not cause our family any inconvenience...if you allow the sale, our lives will change for the worse. Please consider refusing the CNR offer on behalf of the many citizens who will be impacted. Also, if the state is still considering a rail station at 91st street and Wolf's Crossing in Will County...we can not share the rails now. Traffic in this area is already overwhelming and will become even more so if Metra goes through with the plans for an Aurora to O'Hare line on these tracks. We desperately need a place to cross these tracks without being disrupted by the train. Where the train crosses Ogden/Route 34 would be a great place to elevate the line. If you do sell to CNR, please consider the benefits of elevating the track to provide less disruption to automobile traffic. Thank you for your consideration!
