I urge you to deny the application for this proposed railroad. Not only does it destroy the family farm which my late husband and I worked so hard to put together and my two sons are working hard to maintain, but the proposed route also runs right along the cemetery where my husband is buried and approximately 250 burials are held each year. I would hope these people could rest in peace and their loved ones pay respects without the constant roar of trains passing by all day and night. PLEASE SAY NO TO THIS RAILROAD!!!!!!!!!!
