Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

CN | EJ&E

Environmental Impact Statement

Date: 8/28/08

Comments must be submitted by September 30, 2008.

- It appears as if the projected rail traffic is understated. The railroad (CN) is noted as saying its proposed traffic maximizes the EJ+E line capacity. CN, however, has the ability to double track the line. Then the capacity has the ability to greatly increase. Then the impact on the area also increases.
- Is there any way to ensure that the projected traffic stays within thier estimates? Who is to say that they aren't giving low estimates? From what I understand, once the merger occurs they can change thier plan.

YOUR INPUT IS IMPORTANT!
