Transcript:

Liberty Square Subdivision, which backs up to the EJ&J Railroad, I'm a concerned homeowner, only about the noise factor of thirty trains rolling through back in my neighborhood, compared to six, but also emergency services, because the fire station is located on the other side of the tracks of my house. I just don't understand why these trains have to go around the city when they're going through the city. I think it's another ploy by our Mayor, so he can have trains go around the city and get a better bid for the Olympics. But I'm very concerned and I'm not the only one in the subdivision that's concerned about 30 trains tying up traffic and the noise, emergency service, it's ridiculous. Thank you.
