Draft Environmental Impact Statement for the  
Proposed Canadian National Railway Company  
Acquisition of the Elgin, Joliet and Eastern Railway  
Company

STB Finance Docket No. 35087

Date: Aug 27, 2008

Comments must be submitted by September 30, 2008.

The planned acquisition of the EJE, Canadian National Railway will spell disaster on a multitude of levels. The snarl of traffic in downtown Barrington will reduce transportation through town to a standstill. Residents of Barrington who are members of the School District will be unable to get to classes without allowing an exorbitant amount of time. Our youth will be placed at risk as they hastily dodge trains to get to class on time. The economy will suffer as people avoid Barrington for business due to the lack of ability to access the community. The infrastructure is just not in place. For this proposal to be even remotely possible, tunnels & overpasses need to be built to alleviate congestion. But of course that might cost money so better to sacrifice lives. Lives of those suffering a medical emergency who will not receive expedient care because the ambulance will be diverted miles out of town because it can not cross the tracks. Shame on you! What if that was your child?
