

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I am very concerned That The proposed increase in trains will severely hamper The ability of fire, police + rescue people to aid Those in need. I am also concerned That I live on a street where I could be trapped and not be able to drive out since it's only opening is on Lake-Cook Rd immediately East of The E1 + E tracks. This is currently only a small problem, but with The proposed increase This could be a major problem. I sincerely believe That more impact studies must be performed. If CN must move trains through These communities Then They must pay for either underpasses or overpasses at grade crossings. This should not be The responsibility of communities who do not profit but only suffer from The change.

YOUR INPUT IS IMPORTANT!
