

Environmental Impact Statement

12393

CN | EJ&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087Date: 8/28/08

Comments must be submitted by September 30, 2008.

The current Proposal by CN and the process by which the STB / Government is reviewing the impact seem flawed. The time and considerations needed to fully assess this situation are being ignored. CN will be the big winners (along with their stockholders) while the communities along the EJ&E will suffer physically and economically. The Illinois tax payers will also be burdened with the unplanned costs related to infrastructure, safety, the environment and economy.

The research and data presented to date benefits CN and without further due diligence the STB is not making a ~~good~~ balanced decision. Further more, the American Government is allowing a big public "Canadian" company to drive the final decision by holding a gun to the STB's head.

This is the worst course of events to happen to the Chicago suburbs affected, in the 46 years I have lived here. If passed it WILL destroy our community (But who cares a least a big Canadian railroad will get their way).

YOUR INPUT IS IMPORTANT!
