

Environmental Impact Statement

CN | EJ&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

The taxpayers of this area should not have to fund the rail mitigation costs for this project. We need federally or Canadian national funding to pay for a minimum of 4 underpasses or bridges to allow traffic to flow thru on Lake Cook Rd, Route 59, Route 14 & Elva Roads.

Answers must be ~~at~~ given concerning whether the metro train line will be given priority over the E&J line, or and if so, will the CN trains be stopped & held up on their line, thereby spewing out their pollution into the surrounding area.

What about the access to emergency care to the nearby hospital, which will be blocked by the train?

YOUR INPUT IS IMPORTANT!
