Message: I would like to voice opposition for the proposed acquisition of the EJ&E railroad.

This acquisition would have numerous negative impacts on our community of Southwest Naperville. To mention a few....longer trains will create significant traffic delays, emergency vehicle delays, noise, etc.

The school district just voted to redistrict the high schools, and the new route from our neighborhood to the school has to cross the train track TWICE. This will create unreasonable commute times to/from the school. Young drivers (and parents with kids) should not have to be inconvenienced any further.

Thank you for listening.

Heather Kistner
