Title	Business			Dept	
Address	445 E. Washington				
Address 2					
City	Lumbard	State	IL	Zip	60148

Transcript:

I want to know when we're going to get a revised draft environmental impact statement that you need to reissue over the July 25th edition because the fact that you have the July 25th edition does not have the materials that were at the meetings. The maps are not in the draft EIS that were at the meetings, how come? They're not here. So that means the draft EIS is incomplete. So that means you get to have more hearings again in November and you're going to be holding this thing out, this draft, this proposal is gonna be held up another six months, cause you're going to have to go through the whole hearing process all over again because you didn't revamp the maps from the original scoping. The scoping hearings did not come up with the new things, you did not include the hazardous materials cars that were there, you did not leave the car counts in the maps, on the maps, like they are on the maps at the meetings. They're not in the draft impact. Why?!
