STB Finance Docket No. 35087 I am absolutely and totally opposed to this proposed transaction. The ramifications of autos having to wait for added rail traffic will have a very negative effect on businesses in town, as well as drivers' patience. It would also lower property values, create health issues from added harmful emissions, and endanger residents' lives with the possibility of derailments, and the fact that emergency vehicles will have a much longer response time having to wait for many more trains (to say nothing of autos backed up for blocks).
