Message: REF: STB Finance Docket No. 35087

I wish to go on the record as strongly opposing any action by the STB that allows CN to purchase the EJ&E without a firm and total commitment to resolve all traffic congestion issues that the purchase creates for ALL the adjoining communities, including, nothing less than the construction of overpasses and/or underpasses with the total and complete cost to be borne by CN and not the taxpayers in any way, shape or form.

This acquisition is for the total benefit of CN and does absolutely nothing to benefit the residents or the communities. Regardless of what spin the CN or the STB put on this matter, CN benefits through reduced operating costs which will never be passed back to the local residents in any form that can offset the disruption of our lifestyles, lost time in commuting or the lost value to our singly most important asset, our homes.

The purpose of the STB is to serve and protect the taxpayers who pay the salaries of everyone involved in the STB, Please take this responsibility seriously and do what is right, fight for us. If this acquisition is that important to CN, they will step to the plate and do what they must to get it done. The STB just has to stand firm on the "what must be done" part of the process.

Respectfully,

Lonnie E. Frye
