STB Finance Docket No. 35087

We are strongly opposed to the CN Railway's proposed acquisition of the EJ&E Railroad. We live a short mile west of the EJ&E tracks and would be greatly inconvenienced by the long crossing tie-ups caused by increased train flow. Too, we are not exactly thrilled by the increase in hazardous material shipments. The resulting noise and pollution generated from this unreasonable increase in train traffic would be near intolerable.

We moved into the Senior community called "Carillon at Stonegate" located at Indian Trail and Mansfield Roads in Aurora a little more than two years ago and are very appreciative of the peace and quiet and clean air our community offers.

Please do whatever is necessary to reject this ill-thought-out plan.

Thank you.

Mr. and Mrs. Thomas E. White
