Docket No. FD-35952

Dear Mr. Navecky:

I hardly know where to begin to list all of my concerns. The proposed railroad would go diagonally right through one of our farms. This is *incredible!*

I am very concerned with our environment. Hauling hazardous material which could possibly be spilled and permanently poison the soil or destroy plant and animal life is a real concern for me.

Possible water contamination due to leaking train cars or derailments is another huge concern.

Obviously there are many more reasons that I could cite, but the environment and it's protection are close to my heart.

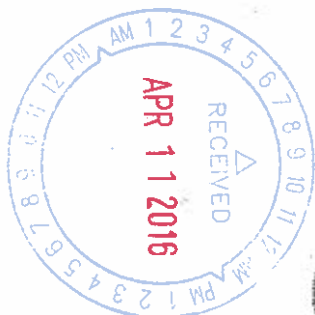

Sincerely,

Joanna Kemper
