Message:

I have been extremely disturbed by this acquisition proposal since I first learned about it. However, my concern has grown as I am learning and observing how many, many more trains running on this line will adversely affect the safety of our community. I am concerned for the vehicles stopped on the tracks, the hundreds of school buses that cross the tracks, the pedestrians in our small town, and the emergency response teams. With the amount of increased freight traffic, statistical probability would ensure that accidents will occur and people will not get the adequate emergency response needed to save lives. Our town was not built to handle freight traffic in this amount. Please stop this acquisition and increase of freight traffic for the safety of our community.
