RE: CN Railway Company/EJ&E
STB Finance Docket No. 35087

Dear Secretary Quinlan:

I am in support of CN railway's proposed acquisition of a portion of the EJ&E rail that encompasses the Chicago area. This would reduce the train congestion in Harvey, as CN will be able to reroute many of its freight trains out of the area, using these less congested tracks.

With the train congestion in Harvey, it is often difficult to just leave or return home without getting delayed by a freight train. I live near a track that intersects my street. The wait at this crossing is typically around 15 minutes and the trains come often. I should not have to deal with such frequent and lengthy waits just because I live near a railroad track.

If CN is able to purchase a portion of this line and redirect much of their freight traffic, Harvey will see a significant decrease in the number of trains coming through the area. This will greatly benefit the residents of not only Harvey, but of the greater Chicago area as well. I support CN's proposal and ask that you give your approval. Thank you.

Sincerely,

Gloria Davis
