Mr. Navecky,

We met briefly at the public meeting held at the Belvidere Community Building on April 19th. Prior to the start of the meeting the Boone County Conservation District (BCCD) provided a cover letter and comments along with 65 supporting documents on a thumb drive attached to a BCCD key chain for easy identification. I have tried to locate these submittals under the FD_35952 listing of submitted documents and comments and do not see any the cover letter with comments or any of the other supporting documents provided.

In addition, the BCCD submitted a 2 foot by 3 foot map with a grid system that depicts the location of species of concern as described in the State of Illinois Wildlife Action Plan. A data table and explanation sheet accompanied that map. There is no indication of receiving this set of information on the website either.

Please let me know whether or not you retain these documents, and if you have them, how the general public can observe them.

Thank you for your time and consideration,

Dan Kane

Daniel J. Kane, LPG
Executive Director
Boone County Conservation District
