Message: I have lived in Naperville for over 30 years, and have been a Realtor here for almost 23 years. I have seen the tremendous growth here, and the surge of growth into surrounding areas, such as Plainfield, Oswego, and areas West. I believe that the increase in railroad traffic will be a huge detriment to these areas as far as travel times to public transportation, expressways, commuter train lines, shopping, schools and more. Corporations, retailers, and the general public will suffer in financial, environmental, as well as quality of life issues.

I urge those in authority to consider these factors, and cancel the sale of the train line to EJ&E.
