HDR

How will CN's proposed acquisition of the EJ&E impact you?

I haven't heard much about how this would affect the metra commuter line to Chicago, that I and many others use each day.

I have experienced metra delays with "waiting for freight train" given as the reason.

I can imagine schedules being developed to appear to have no metra impact... until one or the other is impacted by equipment malfunctions, weather, accidents (auto and pedestrian).

This significant of an increase cannot be done without many unforeseen negative results. It's not like a minor increase!

Signed

Paul R. Haskitt
