Message:

My family is strongly against the EJ&E line being run through the Northwest Indiana region. Since moving back to Indiana two years ago, I am in shock to see the state of our roads and the severe problems with traffic. It is absurd that it takes me 45 minutes to an hour and a half to go 9 miles on my way home from work. And that is if I am lucky and don't get stopped by a train on the three possible train tracks I must cross. And if there is a train, most of the time it is sitting on the track stopped for 10 minutes or longer. There is a dire need for improvements to Northwest Indiana, and the possibility of the proposed EJ&E lines being added to the congestion of Northwest Indiana will significantly reduce our quality of life.
