Currently, traffic through downtown Barrington is often difficult and sometimes awful. The prospect of increased freight train traffic would have an overwhelming impact on congestion and ultimately, safety. Bus traffic crosses these tracks at 4 different locations in Barrington, with no alternate route to reach the grade, middle & high schools. This alone would create havoc with school times and safety issues. It is well known that the traffic flow through Barrington during peak commuter train times is horrible. To add freight trains to rails that traverse different tracks and bisect Barrington at 4 places would result in unbearable congestion at all times of the day & night. If this occurs, I will be looking for another community to line - ~~Surface Transportation Board~~ can actually access.
